

NEW GROWTH WORKSHOPS PRESENTS
**AN EMBODIED INTEGRATION OF TRAUMA
THERAPY APPROACHES**
WITH MORIT HEITZLER

January 27th and 28th 2018 Cost: £195

Morit has been teaching Integrative Body Psychotherapy and trauma work for the past 20 years.

She brings 30 years of experience of clinical practise to her teaching and draws upon approaches including Somatic Trauma Therapy, EMDR, Biodynamic Massage, Sensorimotor Therapy and a Systemic approach to Family Constellations and Transgenerational Trauma.

Her integrative approach combines knowledge and experience gained at the Chiron Centre for Body Psychotherapy, Metanoia Integrative Psychotherapy MSc, the Maudsley Hospital and the Oxford Stress & Trauma Centre as well as Far Eastern Complementary medicine.

I am pleased to be able to offer this CPD event to counsellors and therapists seeking to take the next step beyond basic trauma therapy by integrating diverse approaches, and bringing an embodied and relational perspective to trauma work.

The environment at The Wheelhouse offers a welcoming space for those seeking to increase their knowledge and expand their confidence and we do this through creating a stimulating and accepting environment.

Judy Shaw.
